Government of India Department of Scientific and Industrial Research PROMOTING INNOVATIONS IN INDIVIDUALS, START-UPs and MSMEs (PRISM)

PRISM_ Phase-I: Individual Innovator Proposals

Category I: Proof of Concept/Prototypes/Models Guidelines

Eligibility

Any Indian Citizen having innovative idea or an invention.

Scope & Support

- Project cost up to Rs. 5.00 lakh to help Innovators to convert their ideas into demonstrable models/prototypes. The support is primarily aimed at encouraging student innovators. However, in general, any Indian Citizen having innovative idea or an invention and wishes to demonstrate his idea in the form of basic stage model/prototype/process thus providing proof to his concept can apply in this category.
- The proposals shall preferably be in the following focus sectors: Green Technology, Clean Energy, Industrially utilizable smart materials, Waste to wealth, Affordable healthcare, water & sewage management, any other technology or knowledge intensive area.
- Maximum support under this category is Rs 2.00 lakh or 90% of the approved project cost, whichever is lower.

Mechanism

- The proposals can be submitted to the nearest TePP Outreach cum Cluster Innovation Centres (TOCICs). The innovators can meet coordinators of TOCICs and take their advice before submitting the application.
- The proposals directly received at DSIR will also be forwarded to relevant TOCIC for counselling/ local screening.
- The proposals initially will be screened for completeness at the point of receipt, by the coordinators of TOCICs.
- The proposals after initial screening are evaluated by the Domain Knowledge Experts associated with the TOCIC.
- The TOCICs will send complete and evaluated proposals to DSIR for further action. The proposals will be considered in PRISM Advisory and Screening Committee (PASC) for recommendation.
- The sanction will finally be released to those that are approved by the Department. The applicant has to sign "Terms & Conditions" prior to the actual release of grants-in-aid.
- The first release is based on milestones/deliverables projected in the project proposals and as recommended by PASC. The subsequent releases are based on assessment of progress of the project by Project Review Committee (PRC).
- The approved projects will be monitored by TOCIC/ other network partners including technical expert(s). TOCIC will be periodically reporting project status to DSIR at an interval of 3 months. The PRCs consisting of external experts will meet at least once in nine months to review the progress of the project.
- The project completion report will be accepted by the Competent Authority in the DSIR based on PRC recommendation after successful closure of the project.

Limiting conditions

- The projects relating pure software development and those involving pure academic research are not eligible.
- The financial support is not an award or a prize or a research fellowship. The financial support is provided for the work to be undertaken.
- Students will have to provide a `No Objection Certificate' from the Head of their institutions, on the institutions' letter-head along with their application and the commitment from the institutions that the project will be taken to its logical conclusion by the student/concerned faculty.

- The applicant has to be a single person. When a group of students want to pursue the project, then there has to be an agreement among the group about the lead applicant. Though financial support can be given only to the single applicant by name, letter of appreciation can be given by the department to all the students of the team, after successful completion of the project.
- Elements like self salary, rent of own accommodation, creation of infrastructure facility like shed etc should not form the component of support/funds. The support/funds should be mainly for prototype development work/proof of concept.
- Travel costs are based on actual and not exceeding 5% of the approved project cost.
- Students perusing long term research projects like doctoral research projects or similar projects will not be supported; however student entrepreneurs will be eligible if they have the right to commercially exploit the technology.
- The retention schedule of documents for PRISM for RTI Act, 2005 may be as follows:
 - Rejected or not supported Application: One Year since the date of rejection
 - Approved proposals: Three years (since the closure of the project/issuance of final sanction order).
- The decision of Competent Authority in DSIR in respect of PRISM scheme will be final and binding upon the stake holders.
- In case of any dispute, the liability of PRISM is limited to the jurisdiction of Delhi High Court only.

N.B.: The guidelines are subject to change periodically if desired so by the Competent Authority/Department.
